## **2010 IUPAC-Richter Prize** in Medicinal Chemistry

---

### Call for Nominations

The 2010 IUPAC-Richter Prize will be presented in August 2010 during the EFMC International Symposium on Medicinal Chemistry in Brussels Belgium, where the recipient will also give a plenary lecture on the subject of his/her research. The recipient is required to repeat the lecture at a medicinal chemistry Symposium in the USA. It is anticipated that a contribution will be made to travel expenses but this cannot be guaranteed.

The prize is to be awarded to an internationally recognized scientist, preferably a medicinal chemist, whose activities or published accounts have made an outstanding contribution to the practice of medicinal chemistry or to an outstanding example of new drug discovery.

### **Prize USD 10 000**

The Prize has been established by a generous gift from the **Chemical Works of Gedeon Richter, Plc.** (Budapest, Hungary) to acknowledge the key role that medicinal chemistry plays toward improving human health.

Applicants should be received by **NOMINATION** only, with just one person needing to serve in that capacity, although a total of five (5) individuals should be listed as referees overall. The package must be submitted electronically and should contain a complete resume, a professional autobiography of not more than two pages, and a one-page summary of what the individual considers to be his/her activities, accomplishments and/or publications that have had the most significant impact upon the field of Medicinal Chemistry. The material will be forwarded confidentially to an independent selection committee appointed by the IUPAC Subcommittee on Medicinal Chemistry and Drug Development.

### **Deadline: 31 December 2009**
